

eni i-Sea watercraft 2T

eni i-Sea watercraft 2T is a lubricant designed for modern 2-stroke outboard engines fitted with direct or indirect fuel injection. It is particularly recommended for watercraft and jet-ski but also for universal use. Suitable for premix and self-mixing systems.

CHARACTERISTICS (TYPICAL VALUES)

SAE/ISO grade		-
Density at 15°C	kg/m ³	880
Viscosity at 100°C	mm ² /s	7.2
Viscosity at 40°C	mm ² /s	44
Flash Point (COC)	°C	130
Pour Point	°C	-30

PROPERTIES AND PERFORMANCES

- **eni i-Sea watercraft 2T** contains a selection of ultimate technology components to minimize the corrosion attack to the metal components.
- It has a special formulation studied to prevent ash formation in order to avoid formation of carbon deposits inside the engine ensuring optimal performances (NMMA TC-W3[®] level).
- It delivers an effective antirust and protective action to the engine especially in case of prolonged inactivity (seasonal use).
- **eni i-Sea watercraft 2T** allows an immediate and complete mixing with gasoline.
