

eni i-Ride moto 2t

eni i-Ride moto 2t is a low smoke, synthetic lubricant for very high-powered two-stroke motorcycles used even in sport conditions. It is formulated with the best synthetic basestocks and a specific additives' package to impart exceptional service performance.

The product is suitable for both premix and injection use, and offers top performances in both onroad and offroad usage.

Characteristics (typical figures)

Viscosity at 100° C	mm ² /s	9.7
Viscosity at 40° C	mm ² /s	55
Viscosity Index	-	162
Flash Point COC	°C	82
Pour Point	°C	-54
Mass Density at 15° C	kg/l	0.875

Properties and performance

- eni i-Ride moto 2t is formulated with innovative synthetic basestocks which ensures excellent engine performance even at the highest temperatures and guarantees the maximum cleanliness of all engine parts and strong antiwear action.
- The product has excellent detergency properties, thus minimizing the formation of sludge and deposits in all parts of the engine and preventing ring sticking.

Specifications

eni i-Ride moto 2t meets the requirements of the following service specifications:

- JASO FC
- ISO-L-EGD
